

CONFINED SPACE ENTRY INCLUDING ESCAPE & FULL BREATHING APPARATUS

This programme is designed for managers, supervisors and operatives who may need to enter or supervise the entry into Confined Spaces and carry out a variety of work activities including maintenance and cleansing operations, building and refurbishment work, routine inspections, CCTV operations, flow monitoring and surveys.

Attendance of this in-depth course will provide each delegate with:

1. Basic understanding of health and safety legislation relevant to work in confined spaces.
2. The ability to identify and assess confined spaces.
3. An understanding of atmospheric, physical and biological hazards.
4. How to plan and implement safe systems of work.
5. The practical use of specialised safety equipment, including Access Equipment, Breathing Apparatus and Gas Monitors.
6. How to deal with accidents and emergencies.
7. The ability to enter and work safely and efficiently in confined spaces.

Duration: This course is for duration of two days.

No. of Delegates: 10 maximum per course

Certification: On successful completion of this course Shorcontrol Safety will issue Certificates to each delegate, which are valid for 3 years.
